Verwendung des Moduls/ Module application					
Elective Economics					
• General Management and Economics					
Lernziele/ Learning targets					
The aim of the module is to familiarize students with microeconomic models, their applications and their limitations. After participation, students should be able to understand the foundation of microeconomic analyses in a sporting environment. Students will develop the ability to analyze (sporting) contests and equilibrium situations as well as evaluate different regulation methods and the possibility of sabotage. The knowledge acquired is not only valid for sporting contest but for contest situations in general.					
Inhalt/ Contents					
The module covers standard topics regarding sports economics at an undergraduate level: peculiar economics of sports, contest theory, labor market, regulation in sporting competition and e-sports.					
Lehrformen/ Teaching methods					
Lecture and tutorials					
Prüfungsformen/ Mode of assessment					
The module grade results from the grade of a seminar paper. Up to 25 % of the total number of points attainable in the module can be acquired as bonus points in a written exam. The best grade cannot be achieved without bonus points. Bonus points are only credited if the seminar paper achieves a passing grade without the bonus points.					
Voraussetzungen für die Vergabe von Kreditpunkten/ Requirements for the award of credit points					
Credit points are awarded after successful passing of the seminar paper.					
Stellenwert der Note für die Endnote (bei einem Gesamtstudienumfang von 180 ECTS)/ Weight of the mark for the final score (based on a required coursework of 180 ECTS)
